

# A152 Combination Lock

## Special Notes

Before installing the Combination Lock, familiarise yourself with the operation and functions.

Unless manufactured to special order the default **User Code** is **3333**.

**This code is common to all combination locks and it is very important that you set your own personal User Code.**

**Your lock is not secure until you have changed the default User Code.**

## General maintenance:

- Ensure that the cam moves freely and is not obstructed when operating the lock
- Do not use lubrication or oil on the lock cylinder or code wheels
- Do not expose the lock to external factors EG moisture, dust or fire
- Do not insert any foreign objects into any openings in the lock
- Clean the lock with a damp cloth – do not use any chemical cleaning products
- The combination lock is operable within a temperature range of 0°C to 50°C / 32°F to 120°F
